

Ass_Syn_1.0

You have to synthesize **Down_Counter.v** file and generate **Technology Dependent gate level netlist** in Verilog format using standard cell library (**scmetro_tsmc_cl013g_rvt_tt_1p2v_25c.db**)

1. Using **Design Compiler GUI**
2. Using TCL scripts and run it through **Design Compiler Shell**

Required: -

1. Using GUI
 - GTECH Netlist
 - Technology Mapped Netlist
2. Using Batch Mode
 - syn_script.tcl script
 - syn.log
 - GTECH Netlist
 - Technology Netlist
